About

Victoria Falls Signature Tour

This tour promises intimate and breathtaking wildlife encounters, but as the name suggests, the main attraction is the world-famous Victoria Falls. Locally known as Mosi-oa-Tunya—meaning "The Smoke That Thunders"—Victoria Falls stands as one of the planet's most remarkable natural wonders. Situated along the Zambezi River, straddling Zambia and Zimbabwe, it creates an expansive curtain of water that fills the atmosphere with mist and sound.

The Zimbabwean side offers the most spectacular views, where mist rises like ethereal curtains and rainbows arch through the spray. Spanning approximately 1,708 meters, it is recognized as the largest continuous sheet of falling water on Earth. The nearby town of Victoria Falls serves as an excellent base for exploring the area, offering a diverse array of activities, including scenic flights, microlight excursions, white-water rafting, bungee jumping, kayaking, and safaris into Chobe National Park.
